

B I R D C A L E N D A R  
18 th Y E A R  
1922

Members of the Faculties and Student Bodies, as well as all others interested in B I R D S are invited to contribute to this record which will embrace all birds known either as residents or visitors in the Cleveland region since December 1, 1921.

At this season birds can be identified usually by their size, form, coloring and general habits. Reports should include the Name, Date, Place of observation and the approximate Number of individuals seen, accuracy being the great desideratum. Aid in determining the names of unidentified species will be gladly given. Reports may be made to Professor Hulme, of the College for Women, to Members of the Course in Bird-Study,-Biology 10- or to the undersigned at the Biological Laboratory.

February 24, 1922.
